Osama Mahdi

FRONT END DEVELOPER

Palestine, Gaza | +970595295586 | os6sooma@gmail.com

Summary

Passionate front-end developer with experience in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and Vue.js. Skilled in translating designs into functional websites and optimizing performance across devices. Seeking to contribute my technical expertise and creativity to a dynamic team while growing in full-stack development

Experience

**Front-end Developer	Personal Project – E- commerce Web Application**	**Mar 2025 — Apr 2025**
**Front-end Developer	Personal Project – Web Chat Application**	**May 2025 — Jul 2025**
**Front-end Developer	Personal Project – Weather Web Application**	**Jul 2025 — Jul 2025**
**Front-end Developer	Personal Project – Portfolio Website**	**Nov 2025 — Jan 2026**

Education

**University College of applied sciences – UCAS	Palestine, Gaza**	**2022 — 2027**

Cybersecurity Engineering

I am currently studying Cyber Security Engineering at UCAS. I am expected to graduate in 2027 with a Bachelor of Engineering degree after completing 175 credit hours. My academic journey covers a structured combination of subjects, starting with fundamental engineering courses such as mathematics and physics during the first year and a half. I then move into core cybersecurity foundations, including networking, operating systems, programming, and database essentials throughout the second and third years. The final phase of the program focuses on advanced cybersecurity topics, including embedded systems, database security, and specialized engineering applications. This academic path equips me with a strong theoretical background and practical skills necessary for solving real-world cyber security challenges.

Skills & abilities

- Technical Skills
  - Vue.js
  - HTML
  - CSS
  - JavaScript
  - Firebase
  - TailwindCSS
  - Bootstrap

- Responsive Design
- API integration
- git & GitHub

- Soft Skills
  - Communication
  - Negotiation
  - Searching
  - Self-learning
